

The Latest in Export Quality Turf Technology

ATM Hydrostatic Drive 30" Bowling Green Mower and Groomer is not just a new dimension in simplicity with far fewer working parts, but a bowling green mower that cuts and grooms in one action. The operator can also cut and groom at the speed required for the given conditions on the day.

The Mower and Groomer can also be supplied either Belt or Chain Driven, whatever your preference please specify when ordering.

Australian Turf Machinery Pty Ltd

The ATM Hydrostatic Drive 30" Bowling Green Mower and Groomer comes standard with the following items.

- In-built grooming reel, to groom and mow simultaneously.
- Gunmetal Bearing Housing in the front roller and cylinder.
- Cam Clutch rear roller.
- Timing belts and pulleys to cylinder and rear roller.
- Variable Speed.
